The original full size card is about 18" x 4 3/4" (450x210mm).

Many printers cannot print that big.

I've taken the cutouts of the front panel and made three cards.

When you take a big piece of paper, you can put each card at it's appropriate place.

**Cards status:**

Card confirmed.

If you have any other information about these cards, please send a readable picture or scan to me.

Enjoy and have fun,

Peter
